

U.S. SENATOR
KATIE BOYD BRITT
ALABAMA

United States Senate

WASHINGTON, DC 20510-0103

January 19, 2026

The Honorable Sean Duffy
Secretary
United States Department of Transportation
1200 New Jersey Avenue, SE
Washington, DC 20590

Secretary Duffy:

I write to stress the importance of the Mobile River Bridge and Bayway project and to request your assistance to ensure this project becomes a reality. You and the Department have been extremely helpful to date in positioning the project to move forward and come to fruition. As you know, this is a large and complex project, but importantly, it is the largest shovel-ready infrastructure project in the country. Advancing it would be a significant milestone in President Trump's commitment to improving American infrastructure.

After years of work on engineering, design, and financing, the project has reached a critical point of inflection before it can progress to construction and completion. Accordingly, I respectfully request your and the Department's assistance in resolving the remaining obstacles so that the State can move forward and begin construction. To that end, I request your help in convening the right senior leadership and technical staff from the Department to meet with the relevant stakeholders from the State to assess feasibility, identify the best course of action, and determine next steps.

Again, thank you for your assistance. I look forward to your continued support of this and other important infrastructure priorities in Alabama.

Sincerely,

Katie Boyd Britt
United States Senator

Cc: Kay Ivey, Governor of Alabama
John Cooper, Director, Alabama Department of Transportation
